🔗 linkedin.com/in/harshdubey1198   ⚙ github.com/harshdubey1198   🌐 harshdubey1198.netlify.app

Full Stack Developer with **1 year 9 months** of hands-on experience in building scalable **MERN stack applications**, API development, and DevOps practices. Proficient in **React.js, Node.js, MongoDB, SQL, AWS Cloud, CI/CD**, with a strong foundation in **DSA, OOP, and Agile methodologies**.

EDUCATION

B.Tech in Information Technology, Global Nature Care Sangathan Group Of Institutions, Jabalpur, India   **2019 — 2023**
Graduated with 85.30%, Core subjects: DSA, C, C++, JavaScript, MERN Stack, Software Engineering

EXPERIENCE

Full Stack Web Developer, Magnifying India   **07/2024 — Present**
Remote / Mohali, Chandigarh

- Developed a large-scale **MERN stack** application "aaMOBee" with **RBAC**, **Socket.IO** for real-time communication, and multi-firm architecture.
- Engineered modules for **inventory management**, **invoicing**, and **CRM** using **React.js**, **Node.js**, and **MongoDB**.
- Optimized **REST APIs**, handled routing, and managed **AWS Cloud deployments** with **CI/CD pipelines**.

Full Stack Web Developer, Realty Shopee   **11/2023 — 07/2024**
Gurgaon, India

- Delivered 5 **React.js** single page applications for real estate campaigns within 15 days.
- Built **backend APIs (Node.js + MongoDB)** for dynamic property listing and management.
- Implemented task assignment logic improving workflow automation and reducing manual work.

PROJECTS

ArtDomainX [React, Tailwind, Python, SQL]   **artdomainx.com**
- Built a **social platform for artists**, inspired by Facebook, with posts, events, and guilds.
- Worked as **Frontend Developer + DevOps**: handled reusable React components, optimized APIs, and deployment pipelines.
- Designed for Dubai + multiple countries as an artist hub.

aaMOBee (B2B Client Application)   **aamobee.com**
- Led as **Full Stack Developer**, architected workflows for multi-firm utility and multi-user hierarchy.
- Built secure **REST APIs** and **MongoDB schema design** for invoicing and inventory.
- Scaled deployment on **AWS Cloud** with CI/CD.

Real Estate Website   **realty-shopee-react.vercel.app**
- Developed dynamic property and blog website using **React.js**, **Node.js**, and **MongoDB**.

Portfolio Website   **harshdubey1198.netlify.app**
- Built personal portfolio using **React.js**, showcasing projects, resume, and contact form.

Marisail (Ships Portal)
- Created ships selling platform, migrated from vanilla JS to **React.js**, integrating backend APIs.

SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind, Bootstrap-5
Backend	Node.js, Express.js, REST APIs, MongoDB, SQL, Django (Basic), Python (Basic)
DevOps	AWS Cloud, CI/CD Pipelines, Git, GitHub, Netlify, Vercel, Docker (Basic)
CS Concepts	OOP, DSA, Software Engineering, Agile Methodologies

CERTIFICATES

- Amazon Web Services AI/ML (04/2022)

- AWS Academy Cloud Foundations (12/2021)

- CCNA: Introduction to Networks (06/2021)

- CCNA: Switching, Routing, and Wireless Essentials (07/2022)

- Spell Bee Competition – 2nd Rank (01/2017)

ACHIEVEMENTS

- Language Leader (2018–2019): Managed discipline and growth as School Language Leader.

LANGUAGES

- Hindi – Native/Bilingual Proficiency

- English – Full Professional Proficiency

ADDITIONAL PROJECTS

Jobster   jobster-major.netlify.app
- Built a modern job search portal using **React.js**, featuring candidate dashboards and job listings.
- Implemented authentication, reusable UI components, and responsive layouts for better user experience.

Netflix Clone   netflix-clone-hd.vercel.app
- Developed a streaming web app using **React.js** and **TMDB API**, replicating Netflix UI.
- Features include movie categories, trailers, video previews, and fully responsive design.

UPI Express
- Designed an online payments portal for secure peer-to-peer money transfer.
- Built with **React.js**, focusing on transaction validation, clean UI, and robust API integrations.

Digital Clock   digi-clock-1198.netlify.app
- Created a digital clock application in **React.js**, showcasing real-time updates of date and time.
- Integrated state management and styled components for a simple yet elegant UI.

Instant Chat Messenger
- Android app developed in **Java**, enabling real-time authenticated chat similar to WhatsApp.
- Implemented instant messaging, authentication, and database integration for secure communication.

Real Estate Campaign Sites
- Delivered 5 real estate websites (Krisumi, Trehan, DLF Privana, Satya The Hive, Signature Global).
- Designed unique UI layouts in **React.js** and optimized backend with **Node.js + MongoDB**.
